OBJECTIVE

Web developer with over 6 years of experience in corporate environments. Proficient in CSS, JavaScript, and a variety of frameworks and libraries, along with expertise in WordPress development. Dedicated to delivering effective solutions in a collaborative team environment.

EXPERIENCE

Freelance Web Developer (2015 - Present)
• Delivered web development services, specializing in CSS, React and WordPress for complete website solutions.
Recent projects:
—Online Betting Site Backend Architecture (Java - Spring Boot)
—Accounting System UI & Loan Management System UI (React & Tailwind CSS)

Smartworks Intl. - Web Developer (April 2019 - May 2023)
• Utilized React and various frameworks to develop sophisticated web applications, alongside crafting custom WordPress themes to enhance client websites.
Major achievements in React development:
—Health Insurance Management System, Car Simulator Control Panel UI and websites featuring intricate animations utilizing the react-spring library.
—Refactored codes to ensure the team's adherence to best practices, improving the maintainability of the projects and reducing technical debt.

Techy 7 Digital - Web Developer (February 2018 - November 2018)
• Designed and maintained user-friendly systems tailored to client requirements using WordPress and other open-source technologies.
Other key responsibilities/achievements:
—Enhanced site security, leading to a 70% reduction in security vulnerabilities.

Siamese Studio - Web Developer (January 2016 - January 2018)
• Managed full-stack web development tasks, including custom WordPress theme development using Underscores and plugins such as ACF and WooCommerce.
Other key responsibilities/achievements:
—Optimized websites, reducing page load speed by 40%, resulting in a 20% increase in site engagement.
—Managed deployment and maintenance, ensuring continuous uptime for over 30 client websites.
